Description

[Features](#)

FW1 features:

- Signal range 0,5 NM
- Output 120,5 db at 1 meter at a frequency of 653 Hz
- Corrosion resistant aluminium housing
- Low power consumption, suitable for solar and battery operation
- Maintenance free design
- As standard delivered with Morse U 30 sek audio signal, on request other characters
- Cable synchronization between signal units on request
- Used on fixed offshore structures, oil/ gas platforms, offshore wind farms, FSO and FPSO tankers

- Can be installed together with a Sabik fog detector
- Optionally can be produced in yellow colour
- On request fog signals can be approved according to Classification: Factory Mutual (FM) Class I, Division II, Groups C&D (Hazardous Area)
