

VLS-46

Adjustable LED sector light, 15 -19 NM by night & 1.6 - 3.0 NM by day. The VLS-46 is ideal for harbours with narrow or difficult approaches. The modular design allows up to seven projectors to be placed side by side. This can be used to create unique sector angles, flash patterns and intensities. The VLS-46 has been designed to take advantage of the latest LED technology.

Description

[Features](#)

VLS-46 features:

- Peak intensity from 14,800cd
- Large vertical divergence for visibility by all types of vessels
- Only one tower is required, compared with range lights. This reduces the installation and maintenance cost by half
- Each projector can be individually adjusted to the width required for the application, within the limits defined in this brochure and product manual
- Energy-efficient LED technology is ideal for solar-powered sites
- Maintenance free design (no moving parts) will save money and time

- Lightweight marine-grade aluminium construction makes the unit light and easy to handle
